Hi, Ore.

I want to recognize your outstanding contribution to the Payments Council PwC facilitated for Comcast-NBCUniversal Payments last November.

You created the material that was presented at one of the “focus briefing” sessions at the Council and it was very well received by Council members, who are senior managers responsible for payments in the various business units within the Comcast-NBCUniversal enterprise, including Universal Studios, Universal Orlando, Fandango, Comcast Cable and NBC.

The topic of the briefing session was Prepaid Cards and you developed an in-depth study of the market players, trends, risks, opportunities and other considerations for merchants.

You also collaborated with one of the client business units - Fandango - to incorporate information and graphics about their gift card program into the briefing materials.

The material you produced was well researched, sophisticated and of extremely high quality. I was very proud to be able to present such a solid presentation to key executives of Comcast-NBCUniversal, which is a priority global 50 account.

Because of the level of detail and quality of the session presentation, client attendees were able to qualify for CPE credit.

This was our first time working together and I was very impressed with your performance. Your analytical skills, writing abilities, attention to detail and “can do” attitude were much appreciated.

I thank you for your outstanding work and encourage you to continue working with the Payments Community of Interest (COI). You have a bright future at PwC and I wish you continued success

Gregory
